

I am a K-Love listner in Phoenix, AZ. I am asking you not to give priority to the Lower Power FM stations as this could mean losing my K-Love signal. K-Love is a wonderful station, I would be a tragedy for any K-Love city to loose their K-Love signal. K-Love provides positive and encouraging music and commentary to its listners. If you give priority to the Lower Power FM stations thousands of listners would loose their encouragment for the day. K-Love is also listner supported, if K-Love loose their listner base they would become financially strained and their employees would probably loose their jobs, I do not want that either. Please consider my comments in your decision and take these things into consideration. Thank You.

Sincerely,
Stacie McGlamery
K-Love Listner for 10 years
